

# AVIT240 : Instrument Pilot Airplane

Includes actual flying experience with a FAA approved flight instructor. Students will receive 40 hours of flight instruction, 15 hours of pre/post flight briefing, and 40 hours of ground instruction. The course is designed for students to gain the necessary aeronautical skill and knowledge to meet the requirements of an Instrument Rating with an Airplane category and a Single-Engine Land class rating. This is a Pass/Fail course.
