CDCC104 : Infant and Toddler Development: Theory and Applications

This course is designed to give the student a basic understanding of caring for infants and toddlers in a group setting. Students will learn how to care for children as well as themselves and to be aware of the needs of the child, the care setting, the family, the community, and society as a whole. The course will help you to meet your CDA requirements.

Credits 3

Lecture Hours 3

Lab/Clinical/Field Study Hours 0

Prerequisites

EDUC/CDCC103 (may be taken concurrently)
