

CISM244 : Advanced Project Management

This course will help students plan and manage a wide range of projects, from meeting crucial deadlines and budgets to selecting the right resources. The focus of this course is on the software tools necessary for successful project management. The course will provide students with an understanding of Microsoft Project and allow them to render the skills necessary to utilize the program. Topics include basic and task specific functions, utilization of PERT/Gant, resource management and calendar work schedule manipulation. In addition, students will also be able to customize Microsoft Project views and menus.
