

Student Success & Career Planning Center

Regardless of where you are in the career development process, the Career Center can be of assistance. There are resources to help you learn more about yourself in terms of the world of work and match your values, interests, personality traits and skills to educational and career pathways.

The easy to use career software (Career Coach) is available to combine information from your self-assessment with in-depth and up-to-date career information to provide you with a realistic list of the best educational and career options to consider.

Individual and group career planning, personal and academic success workshops are offered throughout the year. Staff are also available to review resumes and assist with enhancing your interviewing skills.

There is a Career Center located on each campus. For hours and additional information contact:
