

Work Assistance — Federal College Work Study Program (FCWSP)

The work-study program provides part-time jobs to students who have financial need. Work schedules are built around class schedules. Every attempt is made to place students in jobs that relate to their major courses of study, interests and skills. Awards are based on federal appropriation and student may work until funds are exhausted. It is possible that a student will not be able to earn the total FWS funds awarded to them.
